

GRASSHOPPER-X BANNER STAND INSTALLATION GUIDE

This is what your banner stand will look like when it arrives.

Unfold the 3 metal legs of tripod base, the Grasshopper-X will stand on its own.

Lift 2 upper arms attached to gear mechanism simultaneously until they stop.

Unlock the gray toggle switch located on the central pole by rocking it to center.

Now pull up on central pole to increase the height of stand.

Attach banner at bottom of stand first.

Then attach top of banner to the upper arms.

Now adjust stand height again by pulling up on central pole until banner becomes taut.

Rock the toggle to the left or right to lock height of central pole in place.

YOUR GRASSHOPPER-X BANNER STAND IS READY TO USE!
